Daily Liquidity Ratio	28.9%
Weekly Liquidity Ratio	36.7%

Analytical Comment

The Chicago Fed [summary of economic activity](#), noted an overall modest increase in economic activity, though the Illinois unemployment rate remains about 1 percentage point above the national rate. [CoGFA](#) has increased its tax revenue projections by \$2B, to \$52.6B on FY24 against the base forecast. UIUC Institute of Government and Public Affairs noted a marginal increase in the [U of I Flash Index](#), with individual income tax receipts up 7% (while corporate income and sales taxes are down).

Based on current yields, **The Illinois Funds** predicts that allocations across asset classes during the Second Quarter 2024 will hold relatively steady at current levels—except for prime money market funds, which may increase slightly (from 12% to 15%), balancing the technical pressures of limiting US Treasuries in the portfolio. This is done to ensure enough liquidity to meet your needs. **The Illinois Funds** closed the quarter with \$19.5 billion in net assets. The monthly net yield (less expenses) over the previous three months was 5.40%, bringing in \$259 million in quarterly net income to Fund participants, and over \$1 billion in net income over the last twelve months—more than double the \$487 million in net income over the same twelve month period April 2022-March 2023.

Thomas Gary
Director, The Illinois Funds

AVERAGE ASSET ALLOCATION 1ST QUARTER 2024

Quarterly Portfolio Performance

Investment Objective

The primary objective in the investment of **The Illinois Funds** is to ensure the **safety of principal** for Participants. In addition, the Treasurer aims to **manage liquidity** for payment of the State's financial obligations and provide the **highest return on investment**, using authorized instruments, while prudently exercising **sustainable stewardship** in its investment decision-making.

Authorized Investments

The Treasurer's investments are subject to the parameters as set forth in the **Deposit of State Moneys Act (15 ILCS 520/22.5)**, along with measures of fund rating quality and ability to maintain value, as assessed by Nationally Recognized Statistical Ratings Organizations (NRSRO).

Asset Classes

Certificates of Deposit	Federally insured savings account that has a fixed interest rate and fixed date of withdrawal. FDIC insured
Commercial Paper	Bonds issued by Fortune 500 and AAA-rated companies; maturities range from 2-270 days. Backed by issuing bank line of credit.
Corporate Bonds	Debt issued by corporation, promising to pay bondholder stated rate of interest up to maturity date (can extend past 270 days)
Floating Rate Notes	Debt (note) with a variable interest rate; adjustments usually happened every six months.
Governmental Agencies	Debt issued by US Government agencies. No US government guarantee
Money Market Funds	Open-ended mutual fund regulated by SEC Rule 2a-7. Invest in high-quality, short-term investments; pays MM rates of distributions
Prime Money Market Funds	Can sometimes achieve higher yields than MMF because of broader portfolio diversity.
Repurchase Agreements	Overnight lending agreement between seller and buyer, where seller buys back collateralized money, with interest.
Supranationals	Debt issued by International agencies (World Bank, EBRD, etc.), for purposes of economic development. Guaranteed by US Govt
US Treasuries	Debt issued by US Treasury Dept. Maximum holding period is 365 days. Guaranteed by full faith and credit of US Government
