VI. Reason Why Lexis was Determined to be the Sole Economically Feasible Source

This is appropriate under Section 1400.2025 of the Treasurer's Procurement Rules, 44 Ill. Adm. Code 1400.2025, particularly subsections (b)(1), (b)(5), (b)(12) and (c). Pursuant to a publicly-solicited Agreement, the Treasurer utilizes an unclaimed property management system ("System") provided by Kelmar Associates, LLC. The System requires an identification tracking number specific to Lexis and Accurint. In addition to providing this tracking number, Accurint provides identification of claimants, their family members, or other potential claimants, is uniquely efficient in identifying information which can be used to contact potential claimants, and provides data the System uses to populate unclaimed property claims and ensure data matching of claims. In order to provide accurate cross-checking, identification of claimants and tracking of claims, the Treasurer requires these Services provided by Accurint.
